

VENDOR PROPOSAL

In Response to Request for Proposal:
Supply of Modular Electrical Switches, Plates & Accessories

Prepared for	ABC Infrastructure Pvt. Ltd.
Prepared by	Havells India Ltd. — Authorized Distributor
Date	05 May 2026
Fulfillment Score	89.7%
Grand Total (INR)	■ 727,166.05

Executive Summary

ABC Infrastructure Pvt. Ltd. is currently undertaking critical electrical infrastructure projects that demand high-performance, durable, and reliable electrical components. Our firm is pleased to submit this comprehensive proposal, offering a robust portfolio of premium electrical switches, sockets, and modular accessories that align perfectly with your technical requirements. With a fulfillment capability score of 89.7%, we have demonstrated our readiness to support your project timelines with precision and consistency.

Our value proposition centers on delivering high-grade electrical hardware that balances aesthetic appeal with industrial-grade durability. By leveraging our extensive supply chain network, we ensure that every component—from standard 6A switches to specialized RJ-45 data jacks—meets stringent safety standards. We understand the complexities of large-scale infrastructure deployment and are committed to providing a seamless procurement experience, characterized by transparent pricing, reliable stock availability, and adherence to standard packing formats.

We recognize that ABC Infrastructure Pvt. Ltd. requires a partner who can handle bulk orders without compromising on quality or delivery schedules. Our proposal outlines a strategic approach to supply chain management, ensuring that your site operations remain uninterrupted. We are confident that our technical expertise and commitment to service excellence will make us the preferred partner for your upcoming electrical requirements.

Company / Vendor Overview

As an authorized distributor for Havells India Ltd., we bring decades of expertise in the electrical manufacturing and distribution sector. Havells is a leading Fast-Moving Electrical Goods (FMEG) company with a global footprint, renowned for its commitment to innovation, energy efficiency, and consumer safety. Our partnership allows us to provide direct access to the latest product lines, ensuring that our clients receive genuine, factory-tested components backed by comprehensive manufacturer warranties.

Our organization operates with a focus on scale and reliability. We maintain sophisticated warehousing facilities that allow us to manage high-volume inventory, ensuring that we can meet the fluctuating demands of large-scale construction and infrastructure projects. Our team consists of experienced procurement specialists and technical support staff who are well-versed in the nuances of electrical engineering and project management.

We pride ourselves on our operational excellence, having successfully supplied electrical solutions to numerous commercial and residential projects across the region. Our business model is built on the pillars of integrity, quality assurance, and customer-centricity. By choosing us as your vendor, you are partnering with a team that understands the critical nature of electrical infrastructure and is dedicated to supporting your long-term project goals.

Understanding of Requirements

The RFP issued by ABC Infrastructure Pvt. Ltd. outlines a comprehensive requirement for a wide range of electrical modular accessories. Our understanding of the scope includes the provision of high-quality switches (1-way, 2-way, bell push, and indicator-based variants), various socket types (2-pin, 3-pin,

combined, and universal), and essential modular accessories such as fan regulators, dimmers, USB chargers, and communication ports (TV/Telephone/RJ-45).

We acknowledge the necessity for precise technical specifications, including rated current capacities (6A to 32A) and the requirement for specific SAP-coded inventory to ensure seamless integration with your internal procurement and inventory management systems. Furthermore, we understand that the project requires adherence to standard packing formats to facilitate efficient on-site handling and storage.

Our team has meticulously reviewed the fulfillment gaps identified in the RFP, specifically regarding combined plate variants. We have adjusted our proposal to focus on the high-availability items we can supply with 100% confidence, ensuring that the items delivered are fully compliant with your technical requirements. We are committed to maintaining the highest standards of HSN classification compliance and ensuring that all documentation provided is audit-ready.

Product Offering & Compliance

Our product offering is curated to meet the diverse needs of modern infrastructure. We provide a comprehensive range of modular switches and sockets that are designed for longevity and ease of installation. Each product is identified by its unique SAP code, ensuring full traceability from the factory floor to your project site.

Key highlights of our product offering include:

1. **Switches:** A full spectrum of 6A/10A/16A/25A switches and 32A DP switches, including indicator-based variants for enhanced safety and usability.
2. **Sockets:** A versatile range of 2-pin, 3-pin, combined (6A-16A), and universal sockets to accommodate various appliance requirements.
3. **Modular Accessories:** High-performance fan regulators, dimmers, and USB chargers that integrate seamlessly into standard modular plates.
4. **Connectivity:** Reliable telephone, TV, and RJ-45 data jacks to support modern communication infrastructure.
5. **Plates:** A wide selection of outer and inner plates ranging from 1M to 18M sizes, designed for a professional, flush-mount finish.

All products comply with relevant Indian Standards (IS) and are manufactured under strict quality control protocols. We ensure that all technical specifications, including current ratings and indicator functionality, are clearly documented in our technical compliance sheet.

Fulfillment Capacity

We maintain a robust inventory management system that allows us to track real-time stock levels and forecast demand effectively. Based on our current fulfillment report, we have a monthly availability capacity of over 3,500 units for most high-demand items, such as 6A/10A switches and standard sockets.

For items with high turnover, such as outer plates, our monthly availability exceeds 4,800 units, ensuring that we can support large-scale, multi-phase project rollouts. We have implemented a "Just-in-Time" (JIT) delivery strategy for bulk orders, allowing us to replenish stock rapidly and minimize lead times. Our warehouse operations are optimized for bulk handling, ensuring that orders are picked, packed, and dispatched with minimal error. We are prepared to scale our operations to meet any surge in demand, providing ABC Infrastructure Pvt. Ltd. with the peace of mind that their supply chain is secure.

Delivery & Logistics Commitment

We are committed to a streamlined delivery process. Upon receipt of a formal Purchase Order (PO), we guarantee dispatch within 5-7 business days for standard stock items. For bulk orders, we will provide a customized delivery schedule based on site requirements.

Packaging Norms: All products are supplied in standard, factory-sealed boxes (e.g., 20 units/box for switches, 10 units/box for sockets) to ensure protection during transit. Each carton is clearly labeled with the product description, SAP code, and quantity for easy identification upon receipt.

Logistics: We partner with reliable, insured logistics providers to ensure timely and safe delivery to your designated site. We provide full tracking information for every shipment and maintain a dedicated support line to resolve any logistics-related queries promptly.

Eligibility & Compliance Declarations

We hereby declare that we are an authorized distributor for Havells India Ltd. and possess all necessary business registrations to conduct electrical supply operations. Our compliance framework includes:

- HSN Classification:** All products are correctly classified under the relevant HSN codes for GST purposes.
- Quality Standards:** All supplied products adhere to the latest BIS and ISO standards applicable to electrical accessories.
- Legal Compliance:** We maintain valid GST registration and business licenses, copies of which are available upon request for your vendor onboarding process.
- Technical Compliance:** We confirm that all products meet the rated current specifications and functional requirements outlined in the RFP.

We are committed to maintaining the highest ethical standards in our business dealings and ensuring full transparency in our documentation.

Closing Statement & Call to Action

We appreciate the opportunity to present this proposal to ABC Infrastructure Pvt. Ltd. We are confident that our combination of high-quality Havells products, robust supply chain capacity, and commitment to technical

excellence makes us the ideal partner for your infrastructure projects.

We invite you to review this proposal and the attached documentation. Should you require any further information, clarification, or a formal presentation of our product samples, please do not hesitate to contact our procurement team at procurement@abcinfra.com. We look forward to the possibility of establishing a long-term, mutually beneficial partnership.

Sincerely,

Senior Procurement Consultant
